

German Alliance for Trade Facilitation

FOUNDED 2016

THE CHALLENGE

Complex customs regulations and non-transparent procedures cause high transaction costs and impede the access of developing and emerging countries to global markets.

THE OBJECTIVE

Making cross-border trade faster and more efficient by working together to implement the WTO Trade Facilitation Agreement.

THE WTO TRADE FACILITATION AGREEMENT

By fully implementing the WTO TFA, global trade costs could be reduced by 12.5% to 17.5%.

YOUR BENEFIT

Alliance projects significantly reduce time and costs for trade procedures and make customs processes more transparent by building trust between all involved actors.

THE PARTNERS

Government institutions, the private sector and associations at national and global levels

OUR SOLUTION

IDEA COMPETITION

Companies, business associations and governments contribute ideas for projects.

SCOPING

The partners jointly specify the project topics and project focus.

PREPARATION

After analyzing the current situation, the partners develop a plan for the implementation of concrete reforms.

IMPLEMENTATION

The partners jointly implement the agreed trade facilitation measures.

SUSTAINABILITY

The project partners develop further the implemented measures and evaluate the project.

UPSCALING

The Alliance examines the expansion of the project approach within the country and in other countries.
